

ARTICLE 12: Non-Codified Ordinances

1200 General Provisions.

It is recognized that certain portions of municipal ordinances are amended on a frequent basis, or are products of other agencies or regulations which may be subject to changes by implication, rule of law or agency decision, legislation, or the like. It is the purpose of this Article to recognize the need to carry certain municipal ordinances outside of the codified documents. Consequently, the City Council may from time to time adopt ordinances which do not require codification, are not conducive to codification, or both. Any such ordinance shall be filed in its original form with this Article Twelve, and shall be retained in its original form. Any future Ordinance so adopted shall state in the body of the ordinance that it is not to be codified, but the following ordinances shall be recognized as valid and enforceable municipal ordinances, without any need for ratification or enabling language in subsequent amendments thereof. The fact that these ordinances are not codified in no way lessen their validity, and their omission from the City Code is not intended to be a repeal or alteration thereof:
