Arbor Day • May 6

Ham Lake has proclaimed May 6th as Arbor Day, in conjunction with the City's annual Recycling Day (see page 4). A tree planting will be held in Lion's Park (1843 153rd Ave NE) at 10:00 am to celebrate.

Arbor Day began because of the efforts of newspaper editor and tree lover, Julius Sterling Morton of Nebraska City, Nebraska in the early 1870s.

Morton and his wife, Caroline, planted a wide variety of trees on their

newly-purchased acreage. He then proposed a day to encourage all Nebraskans to plant trees in their communities.

Arbor Day became an official state holiday in Nebraska in 1885. The tradition spread. 20 years later it was being celebrated by nearly every other state in the country.

It wouldn't be until 1970, though, that Arbor Day became national recognized, thanks to President Richard Nixon.

Morton is honored in Washington DC as the "Father of Arbor Day." (source: *History.com*)

Spring Road Restrictions are in Effect

Spring road restrictions went into effect at 12:01 am on Friday, March 10. Limiting vehicle weight minimizes damage to the streets when the frost comes out of the ground. This will extend the life of the streets and reduce the need for early (and costly) reconstruction.

Road restrictions are typically put into effect in early March (depending on the weather) and kept in place through the end of April or beginning of May.

Mark Your Calendars

Ham Lake's Fireworks display will be held on Saturday, July 1 at dusk in Lion's Park!

Mark your calendars to join us for the fireworks and the other Freedom Festival events happening that day. Look for more details in the months to come!

Street Sweeping in Ham Lake to Begin Mid-April

Street sweeping will begin in mid-April or as soon as weather permits. If a boulevard has salt or sand on it, please rake only that material to the edge of the blacktop or curb for pickup by the street sweepers.

The boulevard is the distance from the blacktop or curb to the property line (generally 13 to 15 feet).

Please do not rake yard waste material in the City Streets! If you need to dispose of leaves, you may take them to the yard waste dumpster at City Hall (available starting May 12th) or to the compost site at 13285 Hanson Boulevard in Coon Rapids. Another option is to compost your yard waste yourself.

Please watch for street sweepers in your area and move any vehicles or obstacles that may block sweeping operations. Operators can do a much cleaner job if streets are kept clear. Weather permitting, all City streets will be swept by mid-May.

Street sweeping operations will also follow complete seal coating projects on City streets.

Assessor's Corner

In mid-to-late March, Anoka County will be mailing out statements for 2023 Property Taxes Payable and Valuation Notices (2023 value that taxes will be based on in 2024).

For general questions regarding these statements, Anoka County has an online resource at: www.anokacounty.us/281/About-Your-Tax-Statements.

If you have specific questions about the valuation or classification of your residential or agricultural property in Ham Lake, email Mary Wells:

Email: mnessassormary@gmail.com
Phone: 763-412-1966 extension 1

If you have specific questions about the valuation or classification of a commercial, industrial or apartment property in Ham Lake, email Erik Skogquist:

Email: mnessassorerik@gmail.com
Phone: 763-412-1966 extension 0

If you prefer an in-person meeting with Mary or Erik, stop by the Anoka County Assessor's office (2100 3rd Avenue, Room 160 at the Government Center in Anoka) on Tuesday, May 2nd from 1:00-7:00 pm or Wednesday, May 3rd from 8:00 am-4:30 pm.

If you plan to come to the in-person meeting, you are encouraged to call 763-324-1175 to make an appointment so your wait time is minimal when you arrive.

Ham Lake Lion's Pancake Breakfast • April 2

The Ham Lake Lions will host a Pancake Breakfast on Sunday, April 2nd from 8:00 am to 12:30 pm at the Ham Lake Senior Center (15544 Central Ave NE).

There will be drawings for free bicycles, a Boy Scout bake sale and free children's vision screenings.

Free-will donations will be accepted!

Spring Fire Safety

As you clean up this spring, here are some fire safety tips to keep your home and family safe:

- Test your smoke alarms. Replace any alarms that are 10 years old or older.
- Test your carbon monoxide alarms. Replace any alarms that are 7 years old or older.
- Check your dryer vents and clean the dryer exhaust duct.
- Clean clutter inside and outside your home.
- Check the cords on your appliances. If any are cracked or frayed, repair or replace them.
- Practice your home fire escape plan.

Visit www.usfa.fema.gov for more information and for free resources.

Septic system repair & replacement grants

✓ Homesteaded single family homes or duplexes in Anoka Co.

- ✓ Must have been inspected and issued a certificate of non-compliance.
- ✓ May NOT be used for tank pumping or other maintenance.
- ✓ Household must meet low income thresholds. Grant covers up to 90% depending on income.
- ✓ Funding is limited and may vary by location. Shoreland areas or projects providing the greatest health and environmental benefits may be preferentially funded.
- ✓ See all program requirements at www.AnokaSWCD.org under "financial assistance."

Minnesota Broadband Line Extension Connection

The Line Extension Connection program goal is to connect residents and businesses that lack access to broadband internet service to service providers, and then assist in the expense of extending broadband to those locations.

How the Program Works

Residential and business locations that are unserved (lack access to speeds of at least 25Mbps download and 3Mbps upload) can apply by entering their information into the Line Extension Connection portal. This will initiate their interest in receiving broadband internet service and make their location available for consideration.

(Submitting location information into the Line Extension Connection portal does not guarantee extension of service.)

By submitting your address into the portal, internet service providers will have the opportunity to review the location and submit a bid based on the cost to bring service to your location.

The Office of Broadband Development will evaluate these bids and required provider documentation and make awards to the providers whose bid proposes the lowest cost to the State for extension of the service.

Who Can Apply

Locations that currently lack broadband service or have actual broadband speeds of less than 25/3Mbps.

Funding

The Minnesota Broadband Line Extension Connection Program has been allocated \$15 million in total funding. Limits per line extension are set by Minnesota law. These limits are:

- Per-line extension amount cannot exceed \$25,000.
- The Office of Broadband Development (OBD) must ensure the bid is a cost-effective use of state funds.

Timeline

The Minnesota Broadband Line Extension Connection online portal is accepting applications. The bidding and review processes must take place before awards can be made. Once made, projects must be completed within 12 months of the contract date.

- At least every six months, OBD will provide Internet Service Providers the listing of addresses requesting service.
- Service providers will have 10 days to notify OBD of service availability at those locations.
- Service providers have 60 days to submit bids on locations they would like to extend service to.
- OBD will evaluate all bids within 60 days and select the provider whose bid requests the lowest amount of financial support from the state.

For help applying or to request a paper form, call 651-259-7610. For more information about this program visit: mn.gov/deed/programs-services/broadband/extension.

Ham Lake Business Spotlight: Crosstown Chiropractic

Crosstown Chiropractic is one of Ham Lake's most long-standing businesses, having been at its Crosstown Boulevard location since 1968.

Drs. Logan and Mackenzie Engelstad are the newest owners, a second husband and wife team to run the clinic. They bought Crosstown Chiropractic in July 2022 from Drs. Valorie and Robert Hoffman, who had run the clinic since 1986.

"It's definitely rewarding, being a married couple and getting to work together. We set our own schedule, make our own decisions. Being somewhat recent graduates, we're navigating the waters of both providing great care for our patients—living up to the standard of the Hoffmans—and also being business owners," said Dr. Logan.

Dr. Mackenzie adds, "Originally, I wasn't sure about owning our own clinic. But now that we've been working on it for a year, I wouldn't do anything else!"

Purchasing a clinic involves purchasing the patient files and clinic reputation. The Engelstads knew to expect some patient drop-off with the ownership turnover. "Some patients came strictly to see Dr. Valorie, even as far away as South Dakota," said Dr. Logan. "Now we've established what we can expect week-to-week. We got comfortable pretty fast and the patients are great."

Dr. Mackenzie has specific training geared towards families, pregnant moms and babies. They both care for the general population, athletes and older adults. The doctors are comfortable using a variety of techniques based on what each patient prefers: manual adjustment, activator, Logan technique, Webster technique, electric stimulus and more. They anticipate adding drop tables and flexion distraction equipment before too long.

Pain management is at the core of chiropractic care. The doctors help individuals with low back pain, neck and shoulder pain, rib pain and extremity pain

(elbows, knees and more). Whether people are actively moving in their jobs or sitting at a desk all day, they can be helped by chiropractic care.

Drs Logan and Mackenzie , owners of Crosstown Chiropractic

"Our happiest patients are our wellness patients. It's the preventative measure of coming back every two to six weeks to get adjusted to prevent going back to a life of pain," said Dr. Mackenzie.

Dr. Logan added, "We create a care plan that matches each patient, and can constantly adjust along the way as we communicate with them."

Both doctors grew up in small town Minnesota—Dr. Mackenzie near Mankato and Dr. Logan in the northwest part of the state. They enjoy the small town feel of the area after their school and early work experience closer to the Twin Cities and are excited to serve the Ham Lake community.

Crosstown Chiropractic is located at 2330 Crosstown Blvd. NE. See their website (crosstownclinic.com) for much more details about the chiropractic services they offer and their hours. You can reach them by email at crosstownclinic@gmail.com or by phone at 763-434-5714.
