## To Ham Lake Businesses, Thank You!

The Ham Lake Fire Relief Association and Firefighters would like to thank all the local businesses that have supported our efforts in spreading the word on fire safety and educating our community.

Over the years the department has received donations to help fund fire prevention programs for all ages within Ham Lake and neighboring cities.

The donations have helped us provide educational materials and handouts, allowing the firefighters to visit and conduct fire prevention presentations at our local schools.

The donations have also helped us travel around the community with our fire safety messages on nights like Night 2 Unite.

We are excited to continue these educational visits and presentations with our neighbors, friends and students of Ham Lake.

Ham Lake businesses have truly made a difference for us and we are excited to continue our relationship with all of you.

Thank you,  
Ham Lake Fire Department & Fire Relief Association

## Charitable Gambling Tops \$1 Million in Giving

Give local and give generously is the goal of our Ham Lake Chamber of Commerce Charitable Gambling. We currently operate charitable gambling (Lic#02948) at Majestic Oaks Golf Club, The Moonshine Whiskey and Ham Lake Lanes.

Our charitable gambling is focused on giving back directly to our local community. These donations go toward a large mix of non-profit organizations that provide much needed support to our community like mental health, homelessness, food security, veterans, domestic abuse, disability services, and youth activities ranging from sports to arts to scholarships.

At the end of January 2023, we were proud to announce that we topped \$1 MILLION in donations given over the past 6 years!!! Thank YOU for helping us make a difference in our community, one bingo, pull tab and meat raffle at a time!

## Volunteer Opportunities at Alexandra House

### From the Anoka County Sheriff's Office

Each year, nearly 15,000 people turn to Alexandra House for help because of domestic, sexual, and relationship violence, elder abuse or exploitation.

And Alexandra House is there with committed, expert staff and volunteers offering a continuum of services and support. These includes safety planning, shelter, legal advocacy, support groups, basic necessities (food, clothing, personal care items), intervention and prevention services, and more.

This critical work would not be possible without the help of hundreds of volunteers who are deeply committed to ending violence in their communities. Alexandra House has a team of dedicated volunteers working in nearly every program.

We offer a variety of one-time and long-term volunteer opportunities for individuals looking to give of their time and talents.

Our next Volunteer Advocate Training begins in April and presents a unique opportunity for community members to learn critical skills when working with victims/survivors of domestic.

Whether working in our shelter, as hospital advocates, or as childcare providers, volunteers are an indispensable component of Alexandra House's work.

If you are interested, please check out our website: [alexandrahouse.org/get-involved/volunteerintern](http://alexandrahouse.org/get-involved/volunteerintern) and complete a Volunteer Application. You can also review our Volunteer Q & A for more information. Or contact Mollie, Volunteer Services Coordinator, at 651-895-6140 or [mziebart@alexandrahouse.org](mailto:mziebart@alexandrahouse.org).

## Tree Trimming in the City's Right-of-Way

Tree trimming maintenance is generally done in the fall, winter or spring as weather permits. The primary objective is to remove low hanging or broken branches and sightline obstructions that either are or could be a problem in the future.

Tree removal is generally assigned through the Public Works Department.

## Keep It Clean, Ham Lake!

We need your “eyes”! With spring snow melt we need your help in reporting two things to protect property and our waters, Creek Obstructions and Illegal Dumping in Streets.

### Creek Obstructions

Look for blockages of water flow in creeks or culverts. They may be from trash, sticks & leaves and even winter ice.

### Illegal Dumping in Streets

Did you know that anything in water running off property into the street is illegal? Perhaps you spill fertilizer or paint and wash it into the street, or you blow grass clippings or leaves to the curb.

These are called Illicit Discharges: “any discharge to a storm drain system that is not composed entirely of stormwater, with some exceptions, such as fire-fighting or permitted discharges.”

### Common Illicit Discharges

Illegal toxic materials include motor oil, grease, pesticides, herbicides and paint.

Illegal “organic” materials in the street include grass clippings, leaves, sand, snow and salt.

(Ham Lake Ordinance 11-1900)

### What To Do

If water is overflowing the banks of the creek or ditch, call or email the City, or Coon Creek Watershed District at 763-755-0975 or email us at [info@cooncreekwd.org](mailto:info@cooncreekwd.org). Emailing a photo will help us assess how critical the situation is.

If you see anyone spilling, dumping or disposing materials into a storm drain or the street, please report it immediately to the Public Works department between 7:00 am and 3:30 pm by calling 763-235-1662.

If you think it's an emergency, call 911. The fire department handles emergency responses for contamination and spills.

*Information provided by Coon Creek Watershed District.*

## Test Your Smoke Alarms

Smoke alarms show you care about your family's safety. But you have to test them to make sure they work. It takes just a minute, and you will sleep better after you do. Here's how:

1. Push the test button on the alarm. On most alarms it's the only button.
2. Do you hear a loud noise? Yes: It works. No: Change the battery or get a new smoke alarm.

It's pretty simple.

Test your alarms every month. It's an easy way to show your love!

## Recycle Smart: Keep Batteries and Electronics Out of Your Curbside Carts

**Batteries and Battery-Enclosed Electronics** (household and rechargeable) are recyclable at drop-off sites but should not be included in your curbside trash or recycling carts. Cell phones are the most common recyclable item incorrectly placed into recycling carts. Cell phones should be recycled with your cellular service provider or another recycling location that accepts electronic items.

**No Batteries  
or Electronics**

**Why:** Batteries and electronics with non-removable batteries can explode and start fires if crushed or punctured. As batteries get stronger, this is occurring more and more. Every month garbage trucks and recycling facilities experience fires when batteries are improperly thrown away.

### Batteries and Battery-Enclosed Electronics Drop-off Locations

Batteries and some battery-enclosed electronics can be taken to the Anoka County Household Hazardous Waste facility or select recycling centers and drop-off events. Go to [AnokaCountyMN.gov/HHW](http://AnokaCountyMN.gov/HHW) for the hazardous waste facility location, hours and a list of accepted items. Go to: [AnokaCountyMN.gov/RecyclingDirectory](http://AnokaCountyMN.gov/RecyclingDirectory) for more information on recycling centers and local businesses that also accept them.

## Ham Lake Business Spotlight: E Organized LLC

E Organized is an in-person organizing business with a unique focus. Owner Elise Doble has learned that mental health is very much intertwined with the ability to get and stay organized.

Elise keys in on the lifestyle of each client and what kind of system she can help them set up that will work for them in the long run.

"How am I going to organize your home to make it sustainable for your lifestyle? If you have anxiety, if you have ADHD, if you have a family—how can we work on this together in the best way?" is what Elise asks with each client.

A key to her method is de-cluttering, not just buying bins to store what her clients' possessions. "I help them get rid of stuff. I try to save peoples' money and their family relationships," said Elise. "I also try to be as 'green' as possible by not buying more."

She's learned that ADHD, depression, anxiety and other mental health challenges can block people from getting and staying organized. It can be very helpful to have another set of eyes and hands to help recognize what's valuable and what's clutter, to help design a system of order that can be kept up over the long term. Her goal is to not have to be called back!

"Some people with ADHD assume they can't be organized because they're all over the place. That's not the case—they just need a different system," she said.

Elise treats clients with hectic, high-speed lifestyles differently from those who've experienced trauma. Sometimes trauma works itself out in various ways, including mild hoarding. She helps people move past an emotional attachment to an item or event.

She helps identify problem areas and works with her clients to balance their life and stuff by making good decisions according to her motto: acknowledge, accept and move forward.

She said, "I like to work right next to my clients while organizing so they can be accountable and actually work through the process. I'm there to help guide and be that second hand to help make the process go faster."

Ideal clients for E Organized are those who struggle with mental health challenges, and those who are struggling with a transition in their life. It could be new empty nesters, those who are downsizing or going into assisted living, those who have experienced the passing of a family member, or are new parents just starting their family.

Elise has also gotten into motivational speaking, something she's always wanted to do. She's available one-on-one or for small group settings like scouting groups, youth groups and mental health organizations.
