

ANOKA COUNTY SHERIFF'S OFFICE
SHERIFF BRAD WISE
FRIDAY UPDATE: 01.27.23

Scams

01.23 The victim advised me that a person claiming to be Daniel Johnson on FB Messenger sent her a message saying that the Federal Government was giving away money. She went onto explain that she needed to send \$800 and put it into a BitCoin machine off Viking Blvd and she would get a check worth \$50,000. She advised that the person was able to obtain her social security number. After speaking with a BitCoin representative, and he told her it was a scam and she decided to not send the money.

01.24 The victim stated he was contacted by an unknown person on Twitter on 10/23/22. The person had a username of kellych59384837. The person said their name was Kelly Chen and they began chatting and the victim believed there was potential for a relationship. On the 29th of October they began messaging using the app Telegram and she had a username of Chen5457. During their conversations she mentioned she had a friend who was a retired broker, George Davis, and he had a Telegram username of Bigkri1046 and a phone number associated with his account of 231-247-7322. The victim had \$57,000 in crypto currency and they spoke to each other about funding a crypto currency mine to get a better interest rate. The victim moved his crypto using Block Chain and Safe Pal. He then attempted to access his mining account and received a message that he had not registered correctly and would have to add funds to register. He ultimately transferred a home equity loan to a 2nd mortgage and took \$21,000 of that, opened a signature loan for \$21,000 and borrowed \$14,000 from a friend. In the end he lost approximately \$111,000 before realizing that he had been scammed. He had never met or spoken to Chen or Davis by phone.

01.25 The victim stated that on 01-23 she was called around 1230 by a person who claimed to be from the Social Security Administration. She stated they were able to convince her that her social security number was compromised. She then gave them all her information to include some of her bank account information. She then received a phone call from her bank and they advised her that someone tried to get into her account to take money but the bank caught it before they could get any money. She said all her accounts are on hold now until she moves forward. She gave me the phone number that the original call came from which was 605-854-8363 and when I called the number I did not get an answer.

01.25 The victim stated he was contacted by an unknown person on Instagram and they switched communications to Snapchat. He stated that the person identified themselves as a female and asked to see his private parts. He complied and sent 3 photos. He stated that the person started to ask for money or else they would send the photos to all his Instagram followers. He sent the person approximately \$1950.00 through Zelle, Cash App, Apple Gift Cards, and Ebay gift cards. He wanted the person to stop, as they continued to demand more money. The suspect was using the Snapchat username: JeniferMaryclau and the Instagram username: 3_jnnffercl12__.

01.26 The victim was contacted about winning a \$25 million sweepstakes along with two new vehicles. He was told he had to buy Visa gift cards and send their information to help cover transfer fees and taxes. He purchased two \$360 Visa gift cards on 01/25/2023 and sent the information to the suspect. On 01/26/2023, he bought another \$500 Visa gift card at the request of the suspect and sent that gift card's information too. I was told by him that he was about to send another \$500 gift Card and went to meet with the parties at a bank, but they did not show up. The bank manager adamantly warned him that he was falling victim to a scam but he did not listen. He told me he is not concerned about being out of the money, he was concerned the suspects might show up at his house. The suspect told him he was going to deliver two new vehicles from the sweepstakes today. The phone number that the victim was called from was 813-515-8538. I did not locate any names associated with that phone number, and it is likely a fake/scrambled number. He advised me that he had fallen victim to this same type of scam the year prior where he lost a significant amount of money. I advised James to stop sending people money over the phone.
